EDUCATION

University of Houston

Expected graduation: January 2028

Bachelor of Science in Economics – Concentration in Finance

GPA: 3.795/4.0

- Dean's List Spring 2025
- Relevant courses: Business Statistics, Calculus for Business, Financial Mathematics, Data Analytics.

SKILLS & CERTIFICATES

Skills:

- AI & Office tools: PowerPoint, Word, Excel, ChatGPT Prompting, Gemini, Miro.
- Data Skills: SQL Server, Power BI, Tableau, Excel advanced, Python basic.

Certificates:

- Deloitte Data Analytics Jobs Simulation Program on Forage *July 2025*
 - Cleaned and analyzed customer's machine data using Excel
 - Connected data to Tableau to build interactive dashboards highlighting failure trends by production facility and machine type.

EXPERIENCES

Hoang Khanh Company (Viet Nam)

Online Accountant assistant

August 2023 – August 2024

- Assist the chief accountant by reviewing, correcting, and reorganizing financial data to ensure accuracy and consistency using excel.
- Prepared and maintained payroll records for 20+ employees, also compiling and reporting monthly revenue, cost, and profit analyses for two solar power plants.

PROJECTS

Customer Segmentation Analysis Dashboard

July 2025 – August 2025

- Built an interactive Power BI dashboard by integrating Excel customer data to perform RFM (Recency, Frequency, Monetary) analysis for customer segmentation.
- Designed visualizations (pie chart, bar charts, and dynamic filters) to identify high-value, frequent, and at risk customers, enabling targeted marketing strategies.
- Implemented slicers by gender, card class, income, career, and education to allow stakeholders to drill down into customer behavior and improve decision-making.

Revenue Analysis Dashboard

September 2025 – October 2025

- Built a data-driven Power BI dashboard by connecting store SQL database to perform in-depth revenue analysis.
- Created visualizations (line, bar, pie charts, and tables with sparklines) to compare actual revenue with planned and prior-year performance based on product category, managers and stores.
- Added slicers by year and promotion type to identify high-performing campaigns and support data-driven revenue strategies.

Xmas Gift Sales Analysis

October 2025 – December 2025

- Query and analyze Christmas sales, cost and profit data through SQL database and compare growth with previous years
- Calculate and summarize the revenue contribution level by each purchasing channel, by country and city every Christmas and create a ranking list in descending order of revenue.
- Calculate revenue share based on factors such as gender, age group, payment method, or industry and product.
